

ACT! has evolved over the years. ACT! 2011 is the most powerful, efficient version yet, designed to save your users more time, and your business more money, than ever before. Centurion are making it easier and cheaper than ever to stay up to date with the latest version. This will ensure your business remains on the most up to date contact management software, and that you avoid increasing upgrade costs.

### So what's new?

- ✓ Smart Tasks - Automate your business processes
- ✓ Office 2010 Support
- ✓ Improved Outlook integration and Sync
- ✓ Sage Business Information Services - access 65 million potential prospects!

### Smart Tasks - set your tasks free

Smart Tasks are clever little things. They are designed to make life that little bit easier, freeing up your time and improving your relationships with your contacts. They take care of the things you wish you had time to do, whether it be to send an email to all new prospects, automate a customer loyalty program, send thank-you emails to closed opportunities, nudge inactive opportunities with regular news letters, or even try and kick start dead opportunities. You tell ACT! what process you would like it to follow, and it goes off and does it. Now that's useful software.

### Improved Outlook Integration

Bye Bye double entry. Put your contacts in ACT! or in Outlook and synchronise them, including synchronised updates. No more To-do items appearing in your Outlook calendar either - you can now decide which ACT! activity items appear in your calendar, and even which application should give you those all important alarms. More than ever before, ACT! will work in concert with Microsoft Outlook to give you a streamlined, efficient working environment.

### Office 2010 Support

ACT! isn't the only piece of software that has evolved. The latest version of Microsoft's award winning Office software is more powerful than ever, and the great news is that the latest version of ACT! is already fully compatible. ACT! 2011 has been fully tested with Office 2010.

### Sage Business Information Services

Now this is clever. A pain-free subscription service that allows you to search a huge database of potential prospects, chop up the data using any criteria you need to suit your business, and then suck the data automatically into ACT! so that you can start the sales process. Finding prospects for your targeted marketing has never been easier.

### So.....how much does it cost?

ACT! Upgrades are quite simple, but can take up more of your valuable time than they need to. What you need is for the upgrade to happen around you with a minimum of disruption and fuss. That's where Centurion comes in. We charge a flat fee of £295. For that, a consultant will come on site and perform all the necessary techie bits to ensure you are up and running with a stable system when they leave. The only other thing you need is the software. The prices for the software changes regularly, and there are different offers every month, so give Jonathan or Gareth a call on 08445 611223 or email info@centurion-ms.co.uk and we'll get you up and running with a minimum of drama and cost.
